Champion to Hold Sports Day July 1st

The Champion Ball Club reorganized at a meeting in the Chronicle office on Monday night. Ferris Bouzvan was installed as Manager.

The Club decided to send Alex Latiff to Stavelly as their representative at a meeting for the formation of a League.

After considerable discussion it was decided that the ball club sponsor a Sports Day on July 1st. It was planned that base ball, soft ball tournaments along with childrens races and novelty numbers would be the entertainment in the afternoon. The Sports is to be followed by a dance.

Proceeds from the sports would go toward s traveling expenses and the purchase of new uniforms and other equipment.

It appears that some of their gloves, bats etc. have been borrowed and not returned and those some are asked to return them at once to the manager.

Services Recognized

There will be general satisfaction over the appointment of Hon J A MacKinnon of Edmonton as Minister of Trade and Commerce, not only because personally he was entitled to the promotion but because of his western outlook upon affairs he will be able to give added aid to western farmers.

The post of Trade portfolio is one of the most important. It is true that offices having to do with the war effort are now to the fore but it is evident to all that our own country must have trade and be prosperous if we are to make our contribution to the Empire satisfactory. It will be job of Mr MacKinnon to continue the policy of the Government to expand trade wherever possible, of course at moment being careful to see that our war effort is taken care of first.

Mr MacKinnon is well known in Alberta. While in private life he has a business. The Chronicle are not forgetful that he was a newspaper man too and like Mr Euler, whom he succeeds, will fit into the task of advertising our products and seeing that the producers labors are not in vain.

The Chronicle extends sincere congratulations to Mr MacKinnon Alberta's lone representative in the cabinet,

Another Crisis

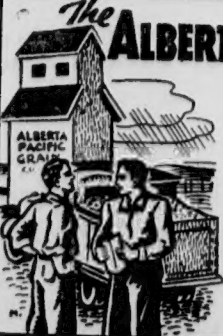

Invading of Belgium and Holland on Friday morning brings the war into another phase or crises and now the forces of the Allies and Germany are to meet in deadly combat and there is every likelihood that an attempt will be made to bombard English towns, killing the civilian population where ever the decides to strike.

No one of course is glad to hear of this new phase and yet it takes something to make people realize fully just what we as Canadians are up against. Surely any who were lukewarm towards the entry of Canada into the war can see that we are fighting, not only the cause of the Empire but freedom and all things which we hold dear. It is idle talk to believe that the war can be confined to this or that area for Germany is determined to break the bonds that hold sway in democratic countries and will wage upon any peoples if it suits the will of Hitler and his gang.

Canadians should brace themselves for many dark days ahead and give to the leaders all possible assistance in their effort to defend freedom.

C.F.A. C. Notes

Bing Crosby's singing discovery, Carole MacFarlane, who used to live next door to Crosby when she was a child, came close to what she called "disaster" during her world debut in the Kraft Music Hall. Carole went through her first song with perfect calmness. When the song ended, she was to chat for a moment or two with Crosby. She sang with ease, but when time came for her interview she couldn't remember what she was to say, and couldn't find the place in her script Bing solved the problem by ad libbing until she could start with her speech. "However," said Carole, "I was very nervous during my second song." Bing Crosby heard over CFAC every Thursday 7:00 to 8:00 P.M.

Spain needs large supplies of wheat and flour, but has not the money nor the credit to buy same. Conditions are said to be bad in that country, the civil war having impoverished the nation.

It is estimated that 45 percent of the seeding in Manitoba was completed by May 4th. However, there is a great variation over that province, 90 percent of the seeding being done in some areas and only 5 percent in others.

Good Seed PAYS!

There is still time for farmers to secure a few bushels of good Registered or Certified Seed, sealed in the sack, of the recommended varieties of oats and barley. Recommended varieties are higher yielding and more resistant to disease than poor varieties.
